Acrylic glass – in a completely new light:

Intoxicating effects through extravagant inlays and artistic colour combinations.

Whether luxurious, mystical, refined, graceful or spectacular – through the interplay of the finest acrylic glass and exclusive, selected materials *“made in Italy”*, designs are created of unprecedented appearance, depth and *“magic”*.

The highlight for the senses is achieved through unique nanoparticles in the acrylic glass. In the presence of light and LED technology, this extraordinary material composition makes it possible to achieve intensely radiant effects and thereby create the perfect setting for shine & shimmer, light & shade, colours & shapes.

Each panel is hand-made and unique, a precious piece of art, incomparable and stunningly beautiful.

Curtain up - let yourself be transported away into the incomparable design worlds of » acrylic couture® « ...

» CANCELLO «

» CANCELLO «

Caught in the moment ...

... dazzling light penetrates the intermingling network structures of CANCELLO. Here, the fine metal lines create countless wandering, wave-like shapes. Light reflections hypnotise the eye of the observer. The irresistible attraction of CANCELLO is created by the simultaneous juxtaposition of the organically flowing visual appearance and the evenness of the material.

» CANGIANTE «

The poetry of distance ...

... metal materials interlaced and woven in various ways give rise to CANGIANTE - a unique material. The light folds in the tissue produce spectacular, three-dimensional effects: similar to silky mountains of fabric that appear to dance, lively movements and surfaces full of poetic sensibility are created.

» ETOILE «

» ETOILE «

The raptures of the deep ...

... the distinguishing characteristic of our ETOILE collection is its filigree structure and dazzling shimmer. Gentle but effective sweeps in the fabric and the translucence of the material evoke an intense impression of depth. The illuminated cast acrylic sheet appears to be a landscape animated by magicians that has been left to its own devices – unique, refined and radiantly beautiful.

» LIZARD «

The magic of seduction ...

... a precious brilliance slides gently over the serpentine pattern of LIZARD. Sneaky moves and sensual shapes form the subtle embossing of this graceful fabric which was inspired by nature itself. Seemingly hidden, delicate nuances appear voluptuously, charming reflections of light and unite passion and ease in this sensational material.

Luxury all along the line ...

... a magical moment, caught by dynamic-spirited rhythm. ZENDADO is permeated by graceful reflections of light. Light and shade enter into a passionate romance. Structures of the eternal appear to shine in this material. Lively, swinging, fashionable – a pure, luxurious metallic look.

» FIOCCHI «

The lightness of illusion ...

... with apparent weightlessness the metal flakes float around like small mountain ranges, rock formations and mica. We have captured them in crystal clear or transparently tinted acrylic glass. Each contour line gives rise to shimmering landscapes within. An exhilarating spectacle of illusionistic trompe l'oeil.

» MALACHITE «

Forgotten worlds ...

... beautiful colour compositions, fluffy textures and delicate silhouettes - forming the essence of our MALACHITE collection. The delicate and contrasting lines appear as they would on a finely polished gem. This creates impressive contours, silhouettes and formations which might stem from a painting of the ocean tides.

» VENTO «

» VENTO «

So close to heaven ...

... a gentle breeze, frozen for all time in acrylic glass.
Made visible by feathers that appear to float in space.
This stunning design is almost a work of art in itself.
It represents the culmination of our new collection of acrylic glass, which is our individual concept of glamour.

Success - a question of the right combination:

Where skill and imagination meet, curiosity arouses creativity, innovation provides opportunities - together we break new ground, dare to create surprising settings, repeatedly causing the observer to marvel at our creations - that is our unifying mission.

Together with our Italian partner Antonio di Gregorio we have - with the compositions of » acrylic couture® « - created something particularly extravagant and luxurious, bringing together exclusive designs consisting of the finest ingredients for our clients.

Through our Europe-wide cooperation with technical and scientific faculties, we are able to fully exploit the positive properties of acrylic glass of the highest quality and continually expand its applications. In terms of product development we are always one step ahead of the times.

Highest quality acrylic glass *made in Italy*.

- Modified with special nanoparticles for the extremely efficient scattering and reflection of light
- "Cross-linked" polymers for higher resistance to scratching and many chemicals compared to conventional PMMA
- 30-year guarantee on UV resistance / weathering
- 100-year guarantee based on very high molecular density against polymer degradation

Create new design worlds together with us:

Numerous well-known clients have already carried out spectacular projects with us and been able to create striking presentations of their company with unusual special productions. Why not take advantage of the potential we have to offer?

We look forward to receiving your ideas and your challenges.

Exemplary

See for yourself the uniqueness and magic of » acrylic couture® «. Experience the astonishing appeal and effect of depth which this catalogue is unfortunately only able to reproduce to a limited extent.

Our box of samples can be ordered by telephone: +49 (0)26 42 - 9 07 88-30. Here you can request further information and/or individual advice without obligation. Simply call us - we look forward to hearing from you!
